

SUSTAINIAC® STEALTH PRO SEMI-INSTALL TEMPLATE (SCALE = 1:1)  
SCHECTER SYN GATES CUSTOM (2HB)

Sustainiac controls = toggles  
LARGE CAVITY VERSION

COVER LENGTH = 7 1/8 IN., WIDTH = 3 1/8 IN.

REAR VIEW OF CAVITY

**COST = \$85.00 in addition to \$229.00 Stealth PRO cost.**

We will supply a completely wired electronics package for your guitar cavity.

You can remove your existing controls AS A UNIT (without unwiring them). You will need only to unsolder your output jack, neck pickup, and tremolo spring wire.

The Semi-install unit will include the following items:

1. Pickup selector switch
2. Volume control
3. Tone control with push-pull Bridge tap switch (or optionally neck pickup boost switch)
4. Sustainiac circuit board
5. Sustainiac ON/OFF and Harm. mode controls
